Floor Waves

Curved design parquet combines natural elegance, exclusive design, and sustainability, offering designers and architects the opportunity to work with truly unique, custom-made solutions. Inspired by our signature wavy sauna materials, each board tells a design story, reflecting the client's vision and adding a personal touch and sense of luxury.

We use only the highest-quality solid wood materials. Our floors are built to last, offering the perfect balance of style and functionality. Whether for business or private residences, every room feels vibrant, with each step leaving its distinct impression.

Curved solid wood parquet is more than just a functional element—it tells a story through its unique patterns, bringing character and a luxurious atmosphere to any space.

Crafting One Curve at a Time

Our solid wood curved design parquet is produced in Estonia, and tailored to each client's unique vision. Using the finest oak and ash, ensuring durability and timeless beauty. Every square meter reflects exceptional quality and design, made specifically for your space.

Unique Touch on Every Floor: Personalize your unique, unmatched curved parquet with colored oils. Here are a few examples, but the selection is much broader. Contact for more information about available colors.

Quality Meets Design and Well-Being: Our floors are designed with environmental sustainability in mind. In addition to their durability, solid wood floors help to create a healthier indoor atmosphere, making them an eco-friendly and health-conscious choice.

Designed for Designers

Solid wood curve design parquet is not just a product, but an investment in the world of style and durability.

Curved design parquet is elegant and durable, bringing timeless beauty to your space. Each board is a work of art, telling the story of your room's uniqueness.
